

Class Act[®] Next Generation

Patented Non-Ionic Surfactant,
Anti-Foaming Agent, Ammonium Sulfate Blend

PROSOURCE ONE

**The most active adjuvant system
available for non-selective and
other herbicides**

*Class Act Next Generation is a
unique and convenient
premixed liquid adjuvant
formulation of a non-ionic
surfactant, anti-foaming
agent, and liquid
ammonium sulfate, which
has been proven to greatly
enhance the efficacy of
low-load and no-load
glyphosate herbicides, and
a variety of other
postemergent herbicides.*

*Years of extensive university
research, independent trials
and manufacturers' product
development have repeatedly
proven top performance by
this unique, patented
formulation.*

ACTIVE INGREDIENTS

Ammonium sulfate solution and corn-based non-ionic surfactant	50.5%
Inert Ingredients	49.5%
Total = 100%	

Class Act[®] Next Generation

Patented Non-Ionic Surfactant,
Anti-Foaming Agent, Ammonium Sulfate Blend

PROSOURCE ONE

Uses

Class Act Next Generation is used primarily with postemergent control products to enhance the efficacy of low-load and no-load glyphosate-based herbicides, and a variety of other postemergent herbicides with similar requirements.

Benefits

Class Act Next Generation is so unique, it's patented:

- Most effective adjuvant system available for a variety of herbicides
- Non-ionic surfactant for optimal coverage, derived from corn
- Ammonium sulfate to prevent cations from inhibiting herbicide function
- Convenient easy-to-use liquid pre-mix
- Predissolved to alleviate sedimentation and nozzle plugging
- No need to handle large bulky bags of ammonium sulfate
- University and independent testing confirm outstanding performance

APPLICATION RATE

Surfactants are generally recommended on a volume-per-volume basis. For example:

Class Act Next Generation per 100 gal. of water	Quarts of non-ionic surfactant	Pounds of dry ammonium sulfate
2.5	= 2	= 8.5
5.0	= 4	= 17.0
7.5	= 6	= 25.5

Data contained herein is product information only and not to be construed as label instructions or directions for specific application. Read and follow all label instructions pertaining to manufacturer's recommendations for rates and use of adjuvants, as provided with the actual product package.

PACKAGING

Class Act Next Generation comes in a variety of sizes for your mixing and storing convenience:

- 2 1/2 Gallon
- 30 Gallon
