GENERAL INFORMATION

DESTINY is a soyoil based spray adjuvant that was developed to maximize the effectiveness of postemergence herbicides or insecticides. This product is a replacement for non-ionic surfactants and crop oil concentrates. Methylated seed oils have been widely tested and research indicates that they improve the performance consistency of herbicides, especially on oversized or stressed weeds.

DIRECTIONS FOR USE
For Terrestrial Use Only – Not For Aquatic Use

DESTINY soyoil based methylated spray adjuvant may be used whenever the herbicide or insecticide label calls for a methylated seed oil or crop oil concentrate. Check the pesticide label for specific crop use, timing and methylated seed oil or oil concentrate rate required for that pesticide.

RATES OF APPLICATION

Apply DESTINY at the rate recommended on the herbicide or insecticide label – generally from 1 pint to 1 quart per acre. Many labels will specify use rates recommended on a volume to volume basis. The amount of DESTINY that should be added per 100 gallons of spray solution for various percent volume to volume are:

% volume to volume	Amount of DESTINY per 100 gallons of spray solution
0.125 % v/v	1 pint
0.25 % v/v	1 quart
0.5 % v/v	2 quarts
1.0 % v/v	1 gallon

MIXING INSTRUCTIONS

Always add DESTINY Adjuvant last to the spray mix and continue agitation or follow specific tank filling and mixing information provided on the herbicide label. Refer to herbicide labels for additional recommendations or precautions.

STORAGE AND DISPOSAL

Storage

Do not store near heat or open flame. Store in a dry location. Storage above freezing is recommended. If product freezes, warm and agitate (recirculate) prior to using.

Adjuvant Disposal

Wastes resulting from the use of this product may be disposed of through on-site spray application or at an approved waste disposal facility. Do not contaminate water by cleaning of equipment or disposal of waste.

Container Disposal

Do not reuse empty container. Triple rinse (or equivalent) during mixing and loading. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. Contact your state and local ACRC recycler or visit the ACRC web page at www.acrecycle.org. Decontaminated containers may also be disposed of in a sanitary landfill.
