

Fast Break[®]

Spray-Tank Foam Control

PROSOURCE ONE

Destroys foam in seconds

Fast Break is an anti-foaming and defoaming agent that works at top speed. Prevent foam by pouring Fast Break into the spray tank before mixing. If foam has already developed, Fast Break destroys it in seconds.

ACTIVE INGREDIENTS

| | |
|--------------------------------|--------|
| Dimethylpolysiloxane | 17.35% |
| Inert ingredients | 82.65% |
| Total = 100% | |

AgriSOLUTIONS[™]

Fast Break[®]

Spray-Tank Foam control

PROSOURCE ONE

Uses

Fast Break is an effective anti-foamer or defoamer that can be added before or during spray tank mixing to eliminate foam.

Benefits

Fast Break provides the following benefits:

- Decreased mixing and tank filling times
- Reduced loss of plant protection products from spray tanks foaming over
- Reduced risk of vegetation kills or contamination caused by tanks that foam over

APPLICATION RATE

| Application | Rate |
|---|--|
| As a preventive (during mixing) | 1 ounce / 100 gallons of solution added during mixing |
| As a curative (for when foam has already developed) | Sprinkle Fast Break over the surface, full strength, for fast foam knockdown |

Always read and follow label directions.

PACKAGING

Fast Break comes in the following packaging:

- 1 pint jug
- Case: 12 x 1 pint
- 1 gallon jug
- Case: 4 x 1 gallon

Always read and follow label directions.
