

# Heat Wave®

## AGRICULTURAL FOAM MARKER

### PRINCIPAL FUNCTIONING AGENTS

Surfactant Blend.....	77%
2-Butoxyethanol and Ethanol.....	23%
TOTAL .....	100%

HEAT WAVE Agricultural Foam Marking Concentrate is an extremely versatile blend of high foaming surfactants and foam stabilizing agents.

### KEEP OUT OF REACH OF CHILDREN WARNING

Causes eye and skin irritation. Avoid contact with eyes, skin or clothing. Wear protective eyewear (goggles or face shield) and chemical-resistant gloves when mixing or handling concentrate. In case of eye contact, flush with water for at least 15 minutes, then get medical attention. In case of contact with skin or clothing, remove contaminated clothing, and wash with plenty of soap and water. Get medical attention if irritation persists. Clean contaminated clothing before reuse. Harmful if swallowed or inhaled. If swallowed or inhaled, call a physician at once.

### GENERAL INFORMATION

HEAT WAVE Agricultural Foam Marking Concentrate is an extremely versatile blend of high foaming surfactants and foam stabilizing agents. Formulated particularly to give longevity under hot, dry and windy conditions. HEAT WAVE will tolerate hard water conditions, while still being compatible with many marker dyes.

### DIRECTIONS FOR USE

HEAT WAVE is a foaming agent designed for use in foam generating equipment used in field marking systems. Before using make sure the foam generator and hose lines are clean and free from residue by flushing with fresh water. The general use rate is one gallon HEAT WAVE, Foam Marking Concentrate, per 100 gallons of water (100:1 dilution). In soft water (<300 ppm hardness) a dilution rate of one gallon HEAT WAVE to 120 gallons of water – up to 160 gallons of water(120:1 or 160:1 dilution) will continue to provide satisfactory results. In water over 1000 ppm hardness a dilution ratio of 80:1 (one gallon per 80 gallons of water) is preferred for extended foam life. Mix HEAT WAVE into the foam tank when it is half full of water, then complete the filling to ensure thorough mixing. Note: Not for aquatic use.

### STORAGE AND DISPOSAL

**Storage:** Do not store near heat or open flame. Do not allow product to freeze. Store in temperatures over 40° F.

**Disposal:** Do not reuse empty container. Offer empty container for recycling or disposal in a sanitary landfill, or by other means approved by state and local authorities.
