

Preference™

New Generation Non-Ionic Surfactant

PROSOURCE ONE

Superior non-ionic 90/10 surfactant

Preference improves adhesion and performance of plant protection products and fertilizers, by reducing the surface tension of the spray droplets, allowing the solution to cover more surface area of the plant.

It reduces evaporation and provides UV protection to extend performance of UV-sensitive products, so you get the most out of the products you use.

In addition, it masks odors of amine herbicides and other sulphur-based products, and is non-foaming.

University research and independent testing through hundreds of comparative field trials have proven that Preference is the most effective non-ionic surfactant in its class.

ACTIVE INGREDIENTS

Non-ionic surfactant and soy derivative90%
Compounds ineffective as spray adjuvants10%
Total = 100%	

AgriSOLUTIONS™

Preference™

New Generation Non-Ionic Surfactant

PROSOURCE ONE

Uses

Preference non-ionic surfactant may be used whenever a plant protection product, post-emergent herbicide, or fertilizer label calls for, or allows for the addition of a non-ionic surfactant. Always check labels for specific uses and application.

Benefits

Preference technology is so innovative, it's patented.

- Provides superior wetting properties
- Promotes adhesion to plant surface
- Offers UV protection to slow photo degradation of sensitive products
- Reduces evaporation
- Non-foaming formula means no anti-foamer needed
- Derived from natural soy ingredients for peace of mind
- Masks odors of amine herbicides
- Aquatic label

APPLICATION RATE

Suggested use rates with various categories of chemicals are as follows. Always check the product label for specific uses and application rates.

Chemical Group	Pints of Preference to add per 100 gallons of spray mixture
Insecticides, Miticides, & Fungicides	.05 to 2 pints
Herbicides	1 to 4 pints
Glyphosate Formulations without added Surfactants	8 pints
Defoliants & Desiccants	1 to 4 pints
Fertilizers & Micronutrients	.5 to 2 pints

PACKAGING

Preference comes in the following packaging options for your mixing and storing convenience:

- Case: 2 x 2½ gal.
- Case: 4 x 1 gal.
- 15 gal. Starpack
- 30 gal. returnable drum
- 110 gal. mini bulk container
- 250 gal. mini bulk container
- 330 gal. returnable container
- Bulk

Always read and follow label directions.
